OFFICE OF

DUNLOP & McCANCE'S MILLS,

1213 East Cary Street,

RICHMOND, VA., MAY 1, 1881.

The demand experienced for our FLOUR, which at times could not be fully met, recently induced us to increase largely our facilities for SUPPLYING THE HOME TRADE. We therefore take this occasion of calling the attention of those who have not tried our brands to the substance of what has heretofore been said upon the subject.

The false economy which some years since induced grocers and their customers to buy cheap flour resulted in so much trouble that many dealers only handle the article as a matter of necessity, and with no view to satisfaction or profit from the business.

Consumers can, however, be influenced by considerations of health and convenience to use a better and consequently more expensive grade of flour, for when they realize that the cost of one dollar or more per barrel amounts in their daily consumption of three or four rounds to a difference of one and a half or two cents, they will hardly regard the additional expenditure an extravagance. To few people purchasing flour by the barrel does it occur that this important article of human food used at every meal, costs less per day than any other on their bill of fare.

We believe it is for the interest of dealers to impress these facts upon the minds of their customers and their patrons the necessity of not only avoiding the handling of brands doubtful or variable in quality.

Holding such views, our fixed policy is to keep the FLOUR represented by our brands to a high standard.

The "DUNLOP PATENT FAMILY" and "OLD DOMINION PATENT FAMILY" meet a want long felt for flour having both color and strength.

Their whiteness cannot fail to please the most fastidious tastes, while their glutinous properties insure a light and nutritious bread.

The advance in the art of milling, by which Patent Flour is made, though last established in the South, is here now to be needed—by housekeepers, to make up for culinary shortcomings; by bakers to give strength and quality to the variable and inferior grades, which can be utilized to advantage by mixing with NEW PROCESS FLOUR.

OF OUR

"PIONEER NEW PROCESS FAMILY"

AND

"McCANCE'S NEW PROCESS TRIPLE-EXTRA"

are recommended by they are unsurpassed by any other goods to be had at the same price, and will certainly give entire satisfaction to those who do not fancy paying the figures which Patent Flour must command to induce its manufacture.

Also our

"JAMES RIVER FALLS EXTRA"

can be confidently recommended to those needing a uniform flour, and one which can be regularly supplied fully up to the standard of the "FALLS ON" and RICHMOND Series, DUNS.

In addition to the above mentioned brands and half-barrels, we are now prepared to deliver equal to the half, quarter, eighth, and sixteenth of a barrel.

[illegible] to meet the wants of our patrons [illegible] the most favorable terms.

Price lists furnished on receipt of stamp for application.

OFFICE OF

DUNLOP & McCANCE'S MILLS,

1213 East Cary Street,

RICHMOND, VA., MAY 1, 1881.

The demand experienced for our FLOUR, which at times could not be fully met, recently induced us to increase largely our facilities for SUPPLYING THE HOME TRADE. We therefore take this occasion of calling the attention of those who have not tried our brands to the substance of what has heretofore been said upon the subject.

The false economy which some years since induced grocers and their customers to buy cheap flour resulted in so much trouble that many dealers only handle the article as a matter of necessity, and with no view to satisfaction or profit from the business.

Consumers can, however, be influenced by considerations of health and convenience to use a better and consequently more expensive grade of flour, for when they realize that the cost of one dollar or more per barrel amounts in their daily consumption of three or four pounds to a difference of one and a half or two cents, they will hardly regard the additional expenditure an extravagance. To few people purchasing flour by the barrel does it occur that this important article of human food used at every meal, costs less per day than any other on their bill of fare.

We believe it is in the power of dealers to impress these truths, thereby saving themselves and their patrons the dissatisfaction which inevitably attends the handling of brands doubtful or variable in quality.

Holding such views, our fixed policy is to keep the FLOUR represented by our brands to a high standard.

The "DUNLOP PATENT FAMILY" and "OLD DOMINION PATENT FAMILY" meet a want long felt for flour having both color and strength.

Their whiteness cannot fail to please the most fastidious taste, while their glutinous properties insure a light and nutritious bread.

The advance in the art of milling, by which Patent Flour is made, though last established in the South, is here much needed—by housekeepers, to make up for culinary shortcomings; by bakers, to give strenth and quality to the variable and inferior grades, which can be only used to advantage by mixing with NEW PRO ESS FLOUR.

OF OUR

"PIONEER NEW PROCESS FAMILY"

AND

"McCANCE'S NEW PROCESS TRIPLE-EXTRA"

we can confidently say they are unsurpassed by any other brands to be had for the same price, and will certainly give entire satisfaction to those who do not fancy paying the figures which Patent Flour must command to induce its manufacture.

Also our

"JAMES RIVER FALLS EXTRA"

can be commended to merchants needing a uniform flour, and one which can be regularly supplied fully up to the standard of the STAUNTON and RICHMOND INSPECTION.

In addition to the usual packages, barrels and half-barrels, we are now putting it in bags equal to the half, quarter, eighth, and sixteenth of a barrel.

All the leading grocers are in position to meet the wants of customers for any quantity upon the most favorable terms.

Price lists furnished the trade upon application.

C. P. E. BURGWYN,

Civil Engineer and Land Surveyor,

Office, Room 7, Goddin Hall,

Corner Eleventh and Bank Sts.,

RICHMOND, VA.

Plantations divided into small farms, and questions of disputed boundaries settled. Waste lands recovered from the water by diking or otherwise. Horse power of a running stream determined, and water or wind mills constructed. Bridges designed with diagram of stresses. Large masses of rock removed. Coffer dams, caissons and foundations sunk, and masonry erected.
